

## BROOKFIELD MULTIPLEX CONSTRUCTION EUROPE LTD ENVIRONMENTAL AND SUSTAINABILITY TARGETS

### 12 month targets from January 2011 in Environment and Sustainability

As signatories to WRAP's initiative for Halving Waste to Landfill by 2012 from 2009, we are taking measures to divert waste from our projects from landfill sites. This is achieved through waste-conscious design, procurement and construction methods.

**Target** – Our projects will aim to achieve the recovery target associated with their commencement year in the table below.

Year of project commencement	Recovery target	Mass of waste to landfill per £100K of construction output	Volume of waste to landfill per £100K of construction output
2009	80%	9 tonnes	8.2 m <sup>3</sup>
2010	83%	7.5 tonnes	6.8 m <sup>3</sup>
2011	87%	6 tonnes	5.5 m <sup>3</sup>
2012	90%	4.5 tonnes	4.1 m <sup>3</sup>
